

The Interfaith Community Clinic

Founded by Dr. Joel Kerschenbaum, the Interfaith Community Clinic (ICC) opened its doors in 1996 to meet the medical needs of the uninsured population. As the needs of the community have grown, so have the services offered at the clinic. Today, the clinic continues to provide quality basic medical and dental care, counseling, and social services to individuals in need.

A volunteer staff of licensed physicians, nurses, medical providers, dentists, dental assistants, dental hygienists, social workers as well as translators and support personnel, work together to provide patient care.

Although clinic services are free, ICC is a charity, volunteer driven service that depends on contributions from our community in order to provide care. Clients are encouraged to make a donation to ICC, however small or large, when they are able. No client will be denied care if they are unable to do so. We depend on you, so you can depend on us!
